

EXHIBIT H

Exhibit H to Class Action Settlement Agreement and Release

This exhibit lists the insurance policy base forms and required endorsements for the policies that are included in the settlement, which are defined as a “Policy” under Paragraph 14 of the Class Action Settlement Agreement and Release (“Agreement”). Each insurance policy at issue in the lawsuit consists of a base form and one or more endorsements. In order for a policy to be included in the definition of “Policy” in the Agreement, the policy must include, for the jurisdiction where the insured property is located, one of the base form(s) listed below and, where applicable for a particular base form, the endorsement(s) listed below. If the information listed below indicates “None” under “Required Endorsements,” this means that the policy only needs to include the base form listed in order to be included in the settlement. **If a Class Member receives a mailed notice package from Travelers, that indicates that Travelers has determined that, according to its records, the policy satisfies these requirements.**

The last four digits of the form number for a particular endorsement indicate the edition, by month and year, of that endorsement. For example, 01 01 refers to January of 2001. Where the endorsement is listed in the chart below as “mm yy,” this means that all editions of that endorsement are included.
